School Year 2023-2024

HyFlex Course Format Request

Available for students entering 11th or 12th grade in the 2023-2024 school year, HyFlex course formats provide students the flexibility to work in a non-traditional learning environment through a combination of synchronous and asynchronous instruction. These opportunities have the potential to positively impact the student learning experience through the provision of self-paced, personalized learning, and greater exposure to online learning in preparation for college. All course offerings, regardless of format, align with the New State Learning Standards and/or the AP College Board Course Standards. Additionally, each course leverages Kingsway's curricula, built and vetted by Kingsway teachers, and delivered via our learning management system, Schoology.

- ☐ The guidelines and student expectations outlined in the ["HyFlex and Virtual Learning Course Selection: A Conversation Guide for Students, Parents, and Counselors"](https://www.krsd.org/Page/1913) were reviewed by both the student and parent(s). (located at <https://www.krsd.org/Page/1913>)
- ☐ Permission is granted for my child to request a HyFlex course format during the course selection process.
