

## Summary of Remedial Measures for Positive Alcohol/Drug Test

The summary of remedial measures outlined below will be applicable for a student who tests positive for alcohol or drugs. Remedial measures will result from a confirmed positive alcohol or drug test, a student's refusal to test when selected and/or tampering with or adulterating the specimen process.

No student will be penalized academically for testing positive for alcohol or other drugs under the school district's policy. Any action taken concerning any student who tests positive for alcohol or other drugs shall be limited to removal from or prohibition against participation in extra-curricular activities, including interscholastic athletics and revocation or denial of a student's parking permit.

The results of drug tests pursuant to this Policy will not be documented in any student's academic records or discipline file. Information regarding the results of drug tests will not be disclosed to criminal or juvenile authorities absent legal compulsion by valid and binding subpoena or other legal process, which the Board of Education will not solicit. In the event of service of any such subpoena or legal process, the student and the student's parent will be notified at least seventy-two (72) hours before response is made by the Board of Education to the extent permitted by such subpoena or legal process. The Contractor will only provide the identity and results of those tested to the Designated Official.
