

# IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

## Monitoring Requirements Not Met for Alkalinity

Our water system violated drinking water requirements over the past year. Even though these were not emergencies, as our customers, you have a right to know what happened and what we are doing (did) to correct these situations.

*\*We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During 7/1/2018 to 12/31/2018 we did not monitor as frequently as required for alkalinity and therefore cannot be sure of the quality of your drinking water during that time.\**

### What should I do?

There is nothing you need to do at this time.

The table below lists the contaminant (s) we did not properly test for during the last year. How often we are supposed to sample for Alkalinity, how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which follow-up samples were taken.

| Contaminant | Required sampling frequency | Number of samples taken | When samples should have been taken   | When samples were taken         |
|-------------|-----------------------------|-------------------------|---------------------------------------|---------------------------------|
| ALKALINITY  | 4 Times per 6 month period  | 3 samples were taken.   | 4 samples between 7/1/18 and 12/31/18 | 7/27/18<br>10/22/18<br>11/27/18 |

What is being done?

*Sampling of Alkalinity will continue at Kingsway, 4 samples per 6 month period as required.*

For more information, please contact Jack Lynch at Environmental & Technical Services, 609-861-7000.

*\*Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.\**

This notice is being sent to you by Kingsway Regional High School.  
State Water System ID# PWSID NJ0817305.
